Coutlas' plurality, 559.		

The election held Tuesday was one of the most decisive in the history of Jacksonville and Morgan county. For the fourth time Jacksonville precinct was made local option territory and by the remarkable majority of 2407. The result was indeed decisive for there was a majority of 77 on the basis of votes cast by men only and a majority of 2330 on votes cast by women.

While the vote was heavy in this precinct on the saloon question, this same interest did not attach to the question of commissioner and the general vote through the county was light. R. R. Coutlas, Democratic candidate for commissioner, was re-elected, his plurality being 559. His election was almost a foregone conclusion because of the candidacy of both Peter D. Megginson on the Republican ticket and William Mortimer on the Progressive ticket. The vote cast for these candidates was: Mr. Coutlas, 2289; Mr. Megginson, 1730; and Mr. Mortimer, 851. Their united strength would have been sufficient to defeat Mr. Coutlas. In Jacksonville precinct there was no contest over the offices of justice of the peace or of constable as there were to be five of each elected. The nominees and consequently those elected were:

Republicans—Justice of the peace, Amos Henderson, W. T. Dyer, L. P. Owen; constables, James Trahey, A. Ferguson and J. A. Crum.

Democrats—Justice of the peace, J. M. Coons, William E. Thomson; constables, George Eads and D. J. Morarty.

In some of the country precincts lively contests were waged over the offices of justice of the peace and constable.

#### Weather Conditions Perfect.

The weather conditions were so favorable Tuesday that no voter had a weather excuse for not staying at home. So far as the women are concerned it is doubtful if anything would have kept them at home except an earthquake or a tornado. They were thoroughly organized and for weeks the work of "lining them up" had been going on and the result yesterday showed how effective that organization work was done. In many a home the wife and mother arose an hour earlier than usual because of election day, disposed of early morning duties and was ready to go to the polls before the man of the house was thoroughly awake. One wife who had continually declared her opposition to woman's suffrage and who had said she would not vote even in this election, gave a thorough surprise to her husband, who when he descended the stairs yesterday morning found her dressed ready to drive to the polls. This one instance gives an indication of what happened in many homes.

#### Victory Belongs to Women.

To the women belongs the real victory of the battle of ballots yesterday. Not only are they responsible for the majority of 2330 given by women but also for the majority of 77 given by men and for many more votes cast by men. The very earnestness with which the women entered into the campaign, the spirit

## POLICE REFUSE TO RIDE WITH STRIKE BREAKERS

### LITTLE RIOTING IS REPORTED AT INDIANAPOLIS

Thirty Policemen Refuse to Ride on Cars With Non-Union Men and Turn in Their Badges but These Are Returned With Orders to Remain on Patrol Duty.

INDIANAPOLIS, Ind., Nov. 4.—The abrupt refusal of thirty members of the police force to ride with strike-breakers caused the fourth day of the street car strike to pass without car service here. The policemen turned in their badges which were returned with orders to remain on patrol duty. It was announced that charges would be preferred against all after the strike had been settled.

In spite of the presence on the street of an unusually large number of men due to the election holiday, little rioting was reported. The strikers and strike sympathizers gathered at a large meeting on the court house grounds and cheered several ministers who addressed them, counselling them to avoid violence. Resolutions denouncing violence were passed by the strikers.

The refusal of the police to act came when a car was manned by strike-breakers for a trial trip. The first three squads protested so vigorously that it was decided to give up the trip.

Willing to March With Car. The policemen said they would march with the car, would fight in the streets, use their guns and clubs at risk to themselves and face the missiles of the crowd but they would not board the cars. Mayor Shank modified a former statement attributed to him defending the police.

After my conference of the last few days, he said, "I believed the lives of all policemen running the cars were in danger and I do not want any bloodshed. When the police are sufficiently reinforced and I believe that can only be done by the state militia, I will see that every policeman does his duty."

Another death directly traceable to the troubles of the traction employees resulted today. John Brogan who was shot October 23rd, during a riot in the downtown district died of his wounds. Brogan was a look part in a parade after a union meeting. James Gorman, a conductor, was charged with the shooting. Charles Fisher, a strike-breaker, of Chicago, was arrested on the charge of shooting Thomas Carlton in the fight in the Louisiana street car barns. Fisher was picked from a crowd of strike-breakers by a man who had been Carlton's companion at the time he was shot.

Rumors from about the state that companies of militia had been preparing themselves to come here at a minute's notice were denied by Governor Ralston, who said that no orders had been given.

### MAY CAUCUS TO DISCUSS ADMINISTRATIVE MEASURE

Few Democratic Senators in Washington Consider Movement.

Washington, Nov. 4.—The movement for a senate Democratic caucus to discuss the administration currency bill gained momentum today in the gossip among the few senators left in Washington. Dissatisfaction with the tentative decision of the banking and currency committee to reduce from 12 to 4 the number of regional banks planned in the new system was given as the ground for the proposal to call a caucus. This decision of the committee has aroused those senators who are most ardent in support of the administration plans.

"Some of the Democrats outside of the banking and currency committee are anxious to know just what the committee is doing," said Senator Hoke Smith of Georgia, today, "for that reason a caucus has been suggested as a means of informing the Democrats as to just what is going on in the committee. I think a caucus would impress the members with the strength of the opposition to the reduction of the number of regional banks to four. There should be eight or nine banks and we will not consent to a lesser number."

Senator Smith said that he did not think any attempt would be made to make the caucus binding on Democratic senators to vote for any particular bill.

SEIZE OLEOMARGARINE. Omaha, Neb., Nov. 4.—Internal Revenue Agent Reed announced today that nearly 200,000 pounds of oleomargarine had been seized today in Nebraska and Iowa on the ground that although containing coloring matter it had been represented as uncolored to evade the tax. Mr. Reed said the oleomargarine was manufactured at the Moxley plant in Chicago.

WILL MEET IN CHICAGO. Springfield, Ill., Nov. 4.—The executive committee of the Illinois Press association today selected Chicago for the place for the next annual convention, which is to open on May 4, and last for three days.

ARMSTRONG ELECTED. Pittsburgh, Pa., Nov. 4.—An unusually bitter contest resulted in the election of Joseph G. Armstrong as mayor of Pittsburgh over Stephen G. Porter a member of congress.

## OFFICIALS DECLINE TO DISCUSS MEXICO

Developments In Official Quarters Add Little of Tangible Character to Exact Status of Affairs

### NO "ULTIMATUM" PRESENTED

Bryan States No "Ultimatum" Was Sent Huerta, But Declines to State Whether Any Other Communication Was Sent

### NOTE IN LINE WITH WILSON'S POLICY

WASHINGTON, Nov. 4.—The Mexican situation was the subject of wide-spread comment in Washington today but the day's developments in official quarters added little of a definite or tangible character concerning the exact status of affairs. The reports from Mexico City that a new and somewhat summary move had been made by the United States toward the elimination of General Huerta, brought no response from the state departments or other officials, beyond a brief statement from Secretary Bryan that no ultimatum had been presented. Whether some other communication, less drastic than an ultimatum had been presented Mr. Bryan positively declined to state, maintaining that the government should be free to shape its course on such affairs without defining each step through the press. President Wilson left early to cast his vote in New Jersey, returning late this evening. Meanwhile Secretary Bryan remained at the state department where there were the other organs of unwonted activity beyond the constant inquiries concerning the reports from Mexico City of another urgent communication.

### Term Much Abused.

In well informed quarters it was admitted that negotiations have been proceeding in pursuance of President Wilson's determination to secure the elimination of Huerta as a factor in Mexico. That this involved delivery to Mexican authorities of another communication was also admitted though it was said this communication did not partake of the nature of an ultimatum.

This much abused diplomatic term, it was pointed out, marks a state in negotiations where one party notifies the other of its compliance with certain demands must be made by a certain fixed hour and date, leaving it to be inferred that force would be used if necessary to bring about a compliance. The term is often popularly used to indicate an urgent diplomatic communication that in effect is calculated to bring the negotiations to a definite issue and some officials suggested that it probably was in this last sense that the term was used in reports of action taken at Mexico City.

### Cannot Recognize Claim.

The correspondence already published shows that President Wilson has from the beginning insisted that the United States government cannot recognize the legality of Huerta's claim to the presidential office and also that the so-called elections held on October 28th, in Mexico held short of meeting the Washington view of the requirements of the constitution. Consequently, it was said today, it is a logical deduction that this late note or communication was in the line of development of a policy which President Wilson has consistently pursued from the beginning and that in substance it amounted to a rather sharp reminder to General Huerta that the United States government now looked to him to meet its expectations and give way to some regularly constituted authority calculated to bring peace to Mexico by commanding the hearty support of the factions now at war. In communicating these views, however, it was said, the officials here are desirous of having their movements proceed in a normal and natural manner without an over-emphasis which would imply that all the resources of diplomacy had been finished.

### McMANIGAL RELEASED ON ACCOUNT OF POOR HEALTH

District Attorney Orders What is Believed to Be His Permanent Release From the County Jail.

LOS ANGELES, Cal., Nov. 4.—The poor health of Ortie E. McManigal, the confessed dynamiter, was the official reason given today by District Attorney John D. Fredericks for ordering what is believed to be the permanent release from the county jail of the untired co-worker of McNamara brothers and chief witness against thirty-three labor union officials who were sentenced to the federal penitentiary at Leavenworth for complicity in a nation-wide dynamite conspiracy.

According to jail attendants McManigal's appetite and constantly increasing girth and weight indicated that his ill-health might have been due to over-eating. They said, however, that he had actually gone to a hospital but that it was to have a surgical operation performed to remove from his forehead a scar which he feared his former co-workers would recognize.

## CONNECTICUT WOMAN SENTENCED TO HANG

MRS. BESSIE WAKEFIELD AND JAMES PLEW TO PAY DEATH PENALTY

Mrs. Wakefield's Counsel Will Appeal to Governor to Commute Sentence—Plew Pleads Guilty to Homicide Under Ancient Statute of 1642 Which Dispenses With Jury.

NEW HAVEN, Conn., Nov. 4.—Mrs. Bessie J. Wakefield and James Plew were sentenced in the superior court by Judge Burpee this afternoon. They will be hanged at the state prison here on March 4, next, for the murder of William Wakefield, the woman's husband.

No woman prisoner has been hanged in Connecticut since 1786. Mrs. Wakefield's counsel will appeal to Governor Baldwin to commute the sentence.

Wakefield was killed at his home in Cheshire, Conn., last June. Plew turned state's evidence and confessed that he had conspired with Mrs. Wakefield to murder her husband. While she took her three children for a walk, he shot the husband, then tied a rope around the neck to give the appearance of suicide.

When arraigned, Plew pleaded guilty to homicide under the ancient statute of 1642, which dispenses with a jury and permits the court to determine the degree of guilt. With one exception this was the first time in 20 years that the statute had been invoked.

### HENNING ADMITS LENDING WIFE'S NAME AND HONOR FOR MONEY

Witness Asserts That Donahoe Assured Him Case Would Never Go To Trial.

Chicago, Nov. 4.—John C. Henning, testified today that he had agreed for money to lend his wife's name and honor to a suit for alienation of affections which he brought against Clarence S. Funk, president of the Rumely company. He admitted he had an understanding with Attorney Daniel Donahoe who is on trial with Detective Steifel for alleged conspiracy to defame Mr. Funk.

"That's about right," was Henning's reply to an inquiry whether money was all he was after. The witness said he did not tell his wife that the suit was based on a charge that Mr. Funk had known her. Henning said that he told her he was to be the plaintiff in a suit charging alienation of her affections.

When asked why he signed the statement making charges against Mr. Funk, Henning said: "Donahoe said the case would never go to trial. He said that Funk wouldn't dare fight."

### ROBBERS MAKE DARING DAYLIGHT RAID ON MOUNT VERNON BANK

Forty President Into Vault and Steal \$1412 But One Robber is Later Captured and Money Recovered.

Mt. Vernon, Ill., Nov. 4.—Forty hundred twelve dollars were stolen and recovered within a few minutes after a daring daylight robbery at the Jefferson State Bank here today. Two robbers forced Dr. L. C. Morgan, president of the bank, into the vault and turned the combination.

They then held the cashier and his assistant at bay with revolvers, took all the cash in sight and fled. The president was released by the cashier and his assistant. A crowd of citizens who pursued the robbers caught one. The other escaped. The man arrested is a stranger in the city.

### LEAVES MONTEVIDEO.

Montevideo, Nov. 4.—After spending twelve hours in Montevideo, Col. Theodore Roosevelt left tonight for Buenos Ayres on board the Scout Ship Uruguay. During his brief sojourn here, Colonel Roosevelt was the guest of the president of the Republic Jose Battle Ordenez, who gave a banquet in his honor at the palace. The cabinet ministers, the diplomatic representatives and several members of the Roosevelt party attended.

## VIRGINIA, PETERSBURG AND EAST BEARDSTOWN TOWNSHIP ARE "DRY"

### VOTE IN VIRGINIA IS MOST DECISIVE, NOT A "WET" VOTE BEING CAST BY A WOMAN

Petersburg Is Voted "Dry" by 457 Votes—Vote in East Beardstown Affects But One Saloon—"Wets" Win Greatest Victory In This State at Du Quoin, Perry Co.,—Prohibition Forces Win Many Victories.

SPRINGFIELD, Ill., Nov. 4.—Virginia, Cass county, remained "dry" today by 549. The 395 women who went to the polls voted solidly dry, not a wet vote being cast by a woman. The vote was 674 dry, 125 wet.

Petersburg "Dry" by Large Majority. SPRINGFIELD, Ill., Nov. 4.—Petersburg voted dry at today's election by a majority of 457 votes. The men's vote was: Dry, 464; wet, 453. The women's vote was: Dry, 616; wet, 170. Total: Dry, 1080; wet, 623.

East Beardstown Township Is Voted "Dry." BEARDSTOWN TOWNSHIP, Ill., Nov. 4.—By a majority of 123 votes East Beardstown township voted "dry" today. The women voted to oust the saloon by a large majority, 175 voting dry to 55 wet ballots; however, without this vote the township would have been made saloonless with the men's vote of 140 dry to 128 wet.

While East Beardstown township has been wet for some time the election today only puts one saloon out of business, there being only one in operation in that territory. The election affects only that territory east of the Chicago, Burlington & Quincy railroad tracks, which does not include the main business portion of the city.

In the election for county commissioner Robert H. Loudon, Democrat, was elected over John W. Branlan by a majority of 600.

### Results of Local Option Elections In Southern Illinois Cities

ST. LOUIS, Mo., Nov. 4.—The prohibition and the opposing forces were running about even in the count of returns of the local option election in several counties of Southern Illinois early tonight. The "wets" greatest victory was at DuQuoin, in Perry county, where they won by a majority of about 350.

About 2,500 votes were cast at DuQuoin, fully 1,200 of which were the ballots of women. These newly enfranchised voters were almost evenly divided on the liquor selling issue. Twenty-three saloons which have been in business there for four years will remain as a result of the election.

Pineckeyville, the county seat of Perry county, went "dry" by a majority of fifty votes. Ten saloons there will be closed. At Percy in the same county the prohibition forces won by 30 votes.

At Ullin, in Pulaski county the "drys" won by about fifty votes. Mound City and Mounds were voted "wet" and Grand City "dry."

### FUSION TICKET IN NEW YORK IS VICTORIOUS OVER MOST OF TAMMANY STANDARD BEARERS

### DEMOCRATS REIGN SUPREME IN MASSACHUSETTS AND VIRGINIA STATE TICKET ELECTIONS

Late Returns Indicate Republican Majority In N. Y. General Assembly --Sulzer Regards His Victory as A Personal Vindication--Lee Chosen U. S. Senator from Maryland.

NEW YORK, Nov. 4.—Election returns at a late hour tonight showed a complete triumph for the Democrats in Massachusetts, where a governor and state ticket were chosen in a four-cornered fight, the selection of a Democrat governor and state ticket in Virginia, without contest, the ascendancy of Fusion over Tammany in New York City with indications of a Republican victory for the New York assembly and judicial ticket and a close fight for the state ticket in New Jersey, where President Wilson and administration forces fought to elect James J. Fielder to the governorship.

In Maryland a Democratic senator was chosen. In Massachusetts David I. Walsh, Democrat, present lieutenant-governor, was elected by a plurality of about 50,000 over Augustus P. Gardner, Republican; Charles S. Bird, Progressive, and Governor Eugene N. Foss, Independent. Henry C. Stuart was chosen governor of Virginia, together with an entire state ticket, Republicans and Progressives having declined to name candidates because of inability to agree on a united ticket.

New Jersey Returns Delayed. Returns from New Jersey were delayed, though Democratic leaders claimed a safe plurality for James J. Fielder for governor over Edward C. Stokes, Republican, and Everett Colby, Progressive.

Fielder, who succeeded President Wilson as governor of New Jersey, had the support of the national administration several members of the cabinet taking the stump in his behalf.

In New York City the triumph of the Fusion ticket was assured and late returns from the state indicated a Republican majority in the general assembly and the selection of a Republican chief judge of the court of appeals and nine supreme court justices. William Sulzer, impeached governor, was elected to the assembly from the sixth district after a

## OTHER STATES GAVE ILLINOIS LEADERS

Natives of Other Commonwealths Among Her Brilliant Political Chiefs—Kentucky Far Ahead.

The nativity of the statesmen who have ruled the destinies of Illinois during her nearly ninety-five years of statehood is a matter of interest especially in the retrospect of her achievements. In the list are the names of many brilliant men who have won not only a state but a national reputation. Since her admission to the Union, December 3, 1818, twenty-eight citizens have filled the position of United States senator from the Prairie state. The greatest indebtedness of Illinois to her statesmen is to Kentucky. Ten sons of that state have served as senators from Illinois, viz: John M. Robinson, William Lee D. Ewing, Richard M. Young, James Semple, Orville H. Browning, William A. Richardson, Richard Yates, Sr., Richard J. Oglesby, Shelby M. Cullom and John M. Palmer. New York stands next, with four who were born in the Empire state, Elias Kent Kane, Sidney Bress, Charles B. Farwell and William E. Mason. Illinois has elected three of her own sons as senators, Samuel McRoberts, John A. Logan and Albert J. Hopkins.

Maryland also furnished three, Ninian Edwards, Jesse B. Thomas and David Davis. Connecticut contributed two, David J. Baker and Lyman Trumbull. Other states and countries represented on the roster are: North Carolina, John McLean; Vermont, Stephen A. Douglas; Ohio, Lawrence Y. Sherman; Virginia, James Hamilton Lewis; Ireland, James Shields; England, William Lorimer.

**Only Three Native Sons.**  
The list, showing but three native sons to have represented her in the highest forum of the republic, is not particularly gratifying to state pride, but many indicate that ambitious statesmen, wherever born, may be gifted with prescient knowledge of the locality which will best appreciate their talents. Even at this late date in her history the sitting members of the senate from Illinois are not natives of her soil. Noting their nativity by sections we find that fifteen Illinois senators were natives of the old slave states, eleven of the free states and two were of foreign birth.

The dean of Illinois statesmen in length of service is Shelby M. Cullom, who lately closed thirty years of official life in the senate. Lyman Trumbull served eighteen years. Stephen A. Douglas served fourteen years, as did John A. Logan, each dying in the second year of his third term.

**Illinois Governors.**  
The roster of Illinois governors shows about the same proportion of imported statesmen as appears among her senators. Kentucky again stands at the front, as on the list of senators with seven of her sons filling the position of chief executive, viz: William Lee D. Ewing, Joseph Duncan, Thomas M. Carlin, Richard Yates, Thomas J. Oglesby, John M. Palmer and Shelby M. Cullom.

New York ranks next and furnished Illinois with four governors: Joel A. Matteson, William H. Bissel, John Wood and John L. Beveridge.

Illinois has seen three native sons chosen as her governors, Richard Yates, Jr., Charles S. Doremus and Edward F. Dunne, the last three incumbents. Maryland follows with two of her sons, Shadrach Bond and Ninian Edwards. Pennsylvania also two, John Reynolds and Thomas Ford. Virginia two, Edward Coles and Joseph W. Pifer.

Three states and one foreign country contributed the remainder: New Hampshire, August C. French; Ohio, John M. Hamilton; Indiana, John R. Tanner; and Prussia, John P. Altgeld.

Six of these governors also served in the United States senate: Edwards, Ewing, Yates, Oglesby, Palmer and Cullom. The first-named was from Maryland, the other five from Kentucky. No native of the state ever served as both governor and senator. Richard Yates, Jr., is the only official who succeeded his father as governor.

This resume of the nativity of Illinois statesmen shows the preponderating influence of men born in the old slave states, especially Kentucky, in her development and politics. It was customary, in the old days, to speak of Virginia as "the mother of presidents," but Kentucky both in the old time and the new, is entitled to be called the mother of Illinois statesmen.

## MILLIKIN COMES NEXT SATURDAY

ILLINOIS COLLEGE TO PLAY DECATUR UNIVERSITY.

Battle Royal Expected When Teams Meet on Illinois Field. Quincy High School and J. S. Will Clash Here Friday.

Football enthusiasts will see two football games this week, when the local high school meet Quincy on Friday afternoon and Illinois college and Millikin university clash Saturday afternoon. Coach Harmon and his eleven realize they have a worthy opponent in Millikin. Although the team was defeated by the fast Williams and Vashti bunch, the record does not adequately show the strength of Millikin and some of their regular men were out of the line up. Coach Harmon has his men in hard practice yesterday and scrimmage was held with the high school team. The men came out of the game with Wesleyan in fairly good shape and ought to be able to put up an interesting contest against the James Millikin men Saturday. Wesleyan's clear title to the championship honors for college football in the state is rather clouded, on account of the defeat they met at the hands of Illinois last Saturday. Millikin is figuring on defeating Illinois, thus displaying their ability to put one over on Wesleyan. From dope the contest promises to be air tight and the team who wins the day will certainly have to have every position well trained and fortified. It has been announced that Coach Muhl has made a shake up of his Wesleyan cohorts. Dunham has been sent to left half and Elliott, Doocey and Smith are being tried out at quarter back with the possibility that Elliott will stick at quarter. Bush is being tried out at center and may keep the position.

**J. H. S. vs. Quincy.**  
Coach Buland is rejoicing because he has his regular men in the high school football squad once more and expects to give the Quincy boys quite a warm reception when they come Friday afternoon. It was a brilliant victory won over Keokuk last Saturday and it is doubtful if Peoria would have scored so high against the locals had not three regulars been out. Quincy has a good team and have been cleaning up a bit on a number of elevens in that neck of the woods. At any rate the game will be interesting and the students are planning to have out a big attendance.

**FOOTBALL.**

**AT THE GRAND.**

Maggie Le Clair and her company in "A Jolly Mix-Up" were seen at the Grand Tuesday evening by a large audience. Miss Le Clair was seen in Jacksonville in the "Running for Congress" company that played a very successful engagement at the Grand this year, and delighted her audience with her clever Irish comedy. The supporting performance was well balanced and the performance was a most creditable one. The company will be at the Grand the remainder of the week.

"The Berean college at Jacksonville, Ill., has been sold to Mrs. Ayers for the sum of \$12,000, to be used as an orphan asylum."

WHEN CAR STRIKES WAGON  
Earl Bourn, who resides on Howe street, was thrown violently to the pavement yesterday morning shortly before noon, when the wagon which he was driving was hit by an east bound street car. The accident happened just as Mr. Bourn was crossing the tracks at Howe street. The car hit the wagon, which belonged to the LaCrosse Lumber company, in such a manner that Mr. Bourn in falling cut a gash in his head and suffered an injury to one of his hands. He was taken to Passavant hospital where he was given medical attention and later removed to his home. The horses were not much frightened by the accident. The driver of the street car stated that he did not see the man starting to cross the street until he was right upon him.

**RETURN FROM THE SOUTH.**  
George Maier and his son in law Anton Graef have just returned from a weeks visit in the south. They spent most of the time at Mr. Maier's plantation not far from Memphis. Much of this land is in cotton but a large acreage is planted in corn and Mr. Graef said yesterday that he was greatly surprised to see the number of corn fields in the south and to note how good the crops are. Cotton this year is in excellent condition there and will make an excellent return to the planters. In Memphis Mr. Maier and Mr. Graef were guests at the home of J. J. Schaefer who with his two sons is conducting a very successful meat business there.

## WOMAN'S RELIEF CORPS HOLDS ANNUAL CONVENTION

Ladies of Twentieth District Meet in All Day Sessions at Christian Church—Convention Next Year at Barry.

The 21st annual convention of the Woman's Relief Corps of the Twentieth Congressional District, Department of Illinois, was held in Central Christian church, Tuesday morning and afternoon, with twenty-seven delegates from out of the city attending besides forty members of Jacksonville corps No. 109. Among the members of importance present were Mrs. Edna Walker of Peoria, president of the Department of Illinois; Mrs. Mary Ingham of Quincy, vice president; Mrs. Mary Tuck Sapp of Plymouth, Ill., past department president and the district president, Mrs. L. The church in which Mr. Davis preached substantially extended him a call to the pastorate and while the church conditions and climate are attractive there he decided to decline the call. SMALL FIRE ON NORTH MAIN.  
What might have been a serious fire was averted at 2 o'clock Tuesday afternoon at the home of C. W. Hill 212 1/2 North Main street by the presence of mind of neighbors who observing a curtain ablaze rushed upstairs and threw some clothes and rags which had caught out of the window. The department was called but the blaze was out when it arrived. Mrs. Hill who was out of the rooms at the time thinks that the fire was caused by children carelessly playing with matches.

**LITCHBERRY.**

Hallowe'en slipped by without any awful bad breaks, but we must report something on a minor scale. Everything that was loose seemed to have a tendency to move around and change places; the old buggies, old wagons, old plows, wheelbarrows and in fact anything that was quietly sleeping in the alleys had a general resurrection and came out to the front, where they stared the citizens in the face the next morning, as much as to say, we want to serve you again; try us. Prof. Jones was completely isolated by having his doors wired shut, and a large farm gate wired onto the front porch. John Daniels was compelled to use his back door for one whole day on account of a wagon load of empty bottles having in some mysterious way gotten in front of his front door. A stranger passing through our town on Saturday morning would have thought that John belonged to the "Jacksonville Business Men's Protective Association," but we all know just where John stands on personal liberty. Of course this is fun for the boys, but some one should inform them that this custom has become obsolete in well civilized communities; then perhaps they could hatch out something new that would be more up to date and just as entertaining.

Mrs. Abe Dinwiddle of the east suburb entertained a number of ladies at a Hallowe'en dinner last Friday. A three course dinner was served in a tasty manner and the afternoon was spent in a social way with music and conversation.  
Our great painter went to Jacksonville last week and failed to return. Our natives are mourning their loss. Some more than others: See?

We would have to issue a catalog to contain all the rare values we have to offer you just now in the way of winter necessities—and the story of how we managed to assemble such a stock and the skillful maneuvering it required to make possible the low prices, would be too long and technical to be interesting. So we sum the whole proposition up in the above heading "You Can't Beat Our Values" and reduce our argument to the one word "Investigate." Do this and we have no fear of you going elsewhere to buy. We are prepared to offer you—at the lowest prices quoted in the city—the best there is in Hosiery, Underwear, Comforts, Blankets, Automobile Robes, Outing Flannel Gowns, Gloves, Dress Goods, Silks, Furs, Outing Flannels, Flannelettes, Bath Robe Patterns, Etc., Etc.

The first prescription was written on Egyptian stone 3500 B. C., and is now in the Metropolitan Museum, N. Y. City. The first prescription dispensed from our files was put up by Robert Hockenhill, senior, in 1842, and can be seen in our east side store window, together with others of same and subsequent years, down to the present time; nearly 500,000 of them in all.

These 50,000 prescriptions represent the accumulation of 71 years' continuous business, and when you take into consideration that in the last 25 or 30 years all the physicians have been dispensing practically all their medicines from their offices, it shows a record of work that we are justly proud of, both for our predecessors as well as ourselves.

This is the day and age of specializing in most all the arts and sciences. We specialize in that of dispensing physicians' prescriptions, and call ourselves the Prescription Specialists. Our intimate knowledge of drugs enables us to personally direct the compounding of them; the supervision of the filling of your prescriptions assures you that no error will be committed in the selection of the proper and purest drugs. Absolute excellence is our standard. We will not tolerate substitution. Our label is a guarantee of quality and we give most careful attention to every article which leaves our stores.

In order to carry out our Specialty we have opened (as you probably know), a prescription room in the Ayers Building, No. 201, for the exclusive compounding of physicians' prescriptions and family recipes. Hours 9:30 to 11:30 morning; 2 to 5 afternoon. We cordially invite you to call in and see our Prescription room. East and West Side Stores of Coover & Shreve can supply all your drug wants. ## Administration By Trust Companies

Until quite recently estates were administered by individuals only.

A need was recognized for a method of administration of greater permanency and responsibility than that to be had of the average individual and the modern trust company has been evolved. A creature of law, it has required time to perfect it and to disseminate a knowledge of its many functions and its usefulness.

People are learning that the management of estates is a business in itself and more and more estates are being placed in control of trust companies. In those communities where these companies have been operating for some time they are handling a large number of estates in a satisfactory manner.

Trust companies under the supervision of the state, safeguarded by ample capital and of assured permanency have exceptional capacity for administering managing, holding and distributing estates.

Generally the entire affairs of the estate are turned over to the trust company, but sometimes a member of the family or a friend is made co-executor. Then the trust company handles the detail work of the estate subject to the approval of the co-executor.

Perhaps in making your will you may desire such an arrangement as this. By it you secure the system, responsibility and experience of the trust company assisted by the co-executor.

We suggest this plan as one that may appeal to you. You are invited to consult us confidentially and with out cost.

### THE ELECTION IS OVER.

When Governor Glynn of New York recently succeeded to the chair William Sulzer was compelled to vacate he said in his inaugural: "I assume this office not with a feeling of exultation but rather with a feeling of solemnity", so to day it is not a time of personal exultation although there may properly come a sincere spirit of thankfulness that so large a majority of the votes cast in this election were against the saloon, that institution which with passing years has grown to be a menace to everything ennobling, everything uplifting and purifying. The battle has been fought strenuously for several weeks past. The dry forces were thoroughly organized and zealous to a degree even exceeding former years. The advocates of saloons for the first time came out openly in the line of battle. The issue was fair and square. The dry forces have won decisively and positively. There can be no doubt that the great majority of Jacksonville people want it to continue a saloonless city. Among the wet forces were men who would have liked to have saloons voted in because of personal profit thereby possible to them. There were others who wanted saloons because of the easy accessibility of liquor thus provided and still many others who honestly believed that well regulated saloons are better than local option territory.

But it now behooves these classes mentioned and all others among the wet forces to abide cheerfully by the so clearly registered will of the people. It behooves the members of the dry forces too to show a tolerant spirit to those they have fairly beaten in the battle of the ballots. It is, as we have said, not a time for self exultation or for a gloating spirit of victory. We all have to continue to live in this city and that it is a good city to live in we all know in our hearts. We are all neighbors and friends after all and just so far as we can forget differences which result from varying view points of belief and habit, just so will the prosperity and advance of Jacksonville be measured.

The Journal believes that the local option law has been well enforced in the city for the past two years and believes that strict enforcement will continue. That's the way the people want it; that's the way they have decreed by their ballots. The vote of the women was a surprise and yet after all not a surprise. The local option women had been at work for weeks marshaling their forces. For many of them there was aside from a principle at stake a certain warm enthusiasm born of the new found rights granted by the Illinois equal suffrage law. Others who had been in the ballot on general principles saw in this election a duty to vote. When one thinks too of the relation of the liquor business to women it is no wonder that they turned out in such vast numbers to register their wishes. Liquor has brought so much sorrow and misery and want to women and it so closely affects the home that the interest which women manifested was after all just a normal womanly instinct battling for the right.

It is a cause for gratification too that aside from the woman's vote that the majority of men were against the saloon so that the final decision is not dependent upon a supreme court opinion to be rendered a year or more hence. Were the results of the election yesterday so long in doubt there would be a continued period of unrest and disquiet whereas with the result known definitely all citizens, men and women can settle down resignedly and work each for his or her individual good and the general welfare of the city. Any one who looks at the figures of the vote yesterday will certainly say "There is no question but that so long as women have the right to vote Jacksonville is a permanent fixture in the dry column." There can be no doubt but that women drew enough votes into the dry column to accomplish that majority of 77. The spirit which the women showed certainly influenced many men to vote with them for the protection of the home.

Again we say, the election is over. The result has been definitely told and let us all abide cheerfully by the will of the majority and work for the best interests of ourselves, our neighbors and all Jacksonville. "Forgetting those things which are behind, and reaching forth unto those things which are before."

With Tammany put absolutely to rout in the New York majority contest, "Boss" Murphy will regret more than ever that he failed to have William Sulzer disqualified from ever holding public office again when the impeachment proceedings were in progress. The speedy return of Sulzer into public life will undoubtedly be accounted by him and his close friends as a vindication of his actions but the general public will look upon his aggrandizement rather as a slap at Tammany and the result of a peculiar political situation. There is no doubt but that Sulzer with his following and with the ability he has will be able to cause a mighty lot of trouble. This trouble would be increased, too, if by some further combination of circumstances or of politics the deposed governor should become speaker of the New York general assembly.

And they said that the women would not vote—yet 2632 of them cast ballots in the election Tuesday. Possibly some of that number will vote again, that is until a liquor question is up for solution.

The women of Virginia went the Jacksonville women one better yesterday when they failed to cast a single wet ballot.

Any Jacksonville man who wants to hold a city office had better have the women "for him."

"Don't sleep in hot rooms."  
"Don't avoid the fresh air."  
"Don't stuff yourself at meal time. Overeating reduces your resistance."

### LINE CENTURY OLD IS BROKEN BY DEATH

Dr. Samuel M. Mosgrove Dead at Home in Urbana, Ohio—Was Nephew of Late Judge Stephen Dunlap—Known to Many Residents Here.

The Urbana, Ohio Daily Citizen of recent date contained the following notice of Dr. Samuel M. Mosgrove, who was the son of Elizabeth Dunlap Mosgrove, a sister of the late Judge Stephen Dunlap. The deceased who was therefore a cousin of Stephen James, William and Samuel and of Mrs. Anna Dewey. Miss Olivia Dunlap who was just returned from an eastern trip was in Urbana during her absence.

"The death of Dr. Samuel M. Mosgrove occurred at his home on Miami street at two-thirty o'clock this morning and with his passing, fir the first time in one hundred years, Urbana is without a physician of the old family name and lineage of Mosgrove. His death came after an illness of six weeks but his condition only became serious three weeks ago, since which time he has been confined to his bed and it was soon recognized by family and friends that his sickness was of a critical nature. For the past few days it was seen that the end was not far off and in the early hours of morning a sable vested wall was lifted and Dr. Mosgrove slept in the cold embrace known as death.

The deceased was sixty-two years of age and was born in this city on August 4th, 1851, the son of Mr. and Mrs. John A. Mosgrove. His life was one of activity and he was always identified, as his ancestors before him, with the best interests of this city and county. He held many prominent public positions and was a dominant power in the Republican party. His father was an old time Whig, voting for William Henry Harrison in 1840 and remaining faithful to that party until it was dissolved, when he joined the Republican party.

Young Mosgrove received his early education in the public schools of this city and then began the study of medicine with his grandfather, Dr. Adam Mosgrove and was added in his work by the supervision of his uncle, Dr. James Mosgrove. Later he entered Miami Medical College of Cincinnati and finished his preparation for his life's work at Bellevue Hospital Medical College in New York City, graduating in 1873. As a physician his standing as a competent and prominent member of the profession was unquestioned.

In public affairs he entered with a zeal and usefulness that was marked. While a member of the city council he was president and chairman of the committee which had charge of the erection of the present city building. In 1893 he was elected state senator from this district and served for two terms with distinct credit to his constituents and with honor to his own high standard of right and wrong. He took an active part in the deliberations of the senate and introduced the Mosgrove medical bill.

Besides serving the city of Urbana as a member of council he was also at different times, health officer, a member of the board of education and for a period of eight years was on the examining board of pensions. For three terms he acted as county coroner.

Elstner and John Adam, will cherish the memory of a kind father and mourn the loss of a guiding hand. A sister, Miss Emma Mosgrove, is also living, and another sister, Mrs. Fanny Becon died a few years ago. Sincere sympathy is felt for the members of the family in their sorrow and many callers visited Dr. Mosgrove home today on missions of condolence.

In writing of Dr. Mosgrove's death it is perhaps fitting to speak briefly of the sturdy stock from which he sprung. His grandfather, Dr. Adam Mosgrove, was born in Enniskillen, County Tyrone, Ireland, on August 12th, 1790 and in early manhood entered the Royal College of Surgeons at Dublin. On his graduation in 1814 he was commissioned as surgeon in the British navy. In 1816 he sailed on the man of war, H. M. S. Charlotte. The ship was disabled while at sea and fought a harbor at Philadelphia. Trouble having arisen among the officers and crew the former all resigned their commissions and the Charlotte lay at anchor in the harbor until she fell into decay. In this way Dr. Adam Mosgrove found himself in a strange land. He decided to remain and first settled in Lancaster, Pa. Later he came to Urbana, in 1818, and since that time for nearly a century, the Mosgrove family has been one of prominence in this community.

With the death of Dr. S. M. Mosgrove the long line of physicians is broken."

### ILLINOIS LAW OF DESCENT.

What becomes of property in Illinois when the owner dies and leaves no will?

This question is briefly answered as follows by a trust company which has gone to the trouble to send out a neat booklet covering:

Unmarried persons—Property goes to parents, brothers and sisters.

Married, no children—If there be other kindred, all the personal estate and half the real property to go to the husband or wife and the other to brothers and sisters.

Married person with spouse and no kindred—All goes to wife.

Married and having children—Surviving husband or wife gets a third, and dower or income from a third during life. The remainder goes to children or their heirs.

Persons without immediate kindred—Goes to descendants of nearest grandparent.

No will, no kindred, no wife—All goes to county.

When child is born after will has been made—The instrument it not revoked, but unless it appears that it was the intention of testator to disinherit the child, the other bequests are abated to make provisions the same as if there was no will.

Marriage revokes a will, though provision may be made by agreement before marriage to restrict of defeat the interest another would have in the property.

When a child benefiting dies—Then his issue takes the interest—if there is no issue, the procedure is the same as though there were no will.

Rights of an adopted child—Are the same as a blood relative except that such a person cannot take property expressly limited to the body of such parents.

If a resident of Illinois is not satisfied with this kind of distribution it is up to him to make a will. In every community attorneys make a business of drawing wills.

### IMPORTANT BUSINESS DEAL JUST CLOSED

FRENCH PIANO COMPANY SUCCEEDS TO W. T. BROWN ESTABLISHMENT.

Well Known Firm With Headquarters in Springfield Has Taken Possession of Local Store—Will Hold Special Sale and Close Out All Present Stock.

An important business change took place Tuesday when the W. T. Brown Piano Co., sold its stock and good will and transferred its building lease to the French & Sons Piano Company with headquarters at Springfield. The building is on the southwest corner of the square and is owned by W. R. Routt and is one of the best properties in the city.

J. B. Bliss is secretary, treasurer and general manager of the purchasing company and it was he who consummated the deal. He will have charge of the newly acquired establishment and will place in immediate local management Messrs. C. W. Sandusky and D. H. Shakely who will shortly come to this city to reside. It is the intention of the new firm to sell off the stock of the store in a short time and then stock it entirely with the product of the French & Sons Piano Company.

The Jesse French & Sons Piano Company have a factory at New-Castle, Ind., where they have been operating some forty years and at present manufacture and send out 10,000 pianos a year. They have stores in many parts of the country and their chief one is at Springfield, this state. Their establishment is well prepared with all that makes a successful factory.

### Mr. Brown Long in Business.

It is a pleasure to know that Mr. Brown will not move from the city, but will have desk room with the new firm for a year or so at least. He has other large business interests in this vicinity and these will take much of his time and attention. He has been in the music business for thirty-nine years and the greater part of that time he has been in this city. For some five years, beginning in 1874 he was a member of the firm of Dayrows & Brown located in Concordatory block and then he decided to go east and learn more about pianos by undertaking factory work which he did with his usual conscientious manner and thus gained valuable experience. After a few years thus occupied he decided to return west and first resided in Lincoln, Ill., for two years though he regularly visited this city and did tuning and pipe organ repairing.

He next associated himself with J. L. Tindale and John W. Springer under the firm name and style of Tindale, Brown and Co. Mr. Springer, subsequently decided to remove to Colorado and the other two bought his interest and incorporated the Tindale, Brown & Company with C. H. Smith and Frank Strawn as partners. The firm was associated in the conduct of the business while some of the stock was held by eastern capitalists.

The other three local stockholders gradually withdrew from the establishment and Mr. Brown secured possession of their stock and about ten years ago he had the whole establishment to himself and changed the name to the W. T. Brown Piano Co., though there was really no corporate existence when he took hold alone.

### Is An Old Stand.

The store has been in its present location for a great many years and its trade has extended beyond the state considerable business having been done in Missouri. Mr. Brown is a man of sterling integrity and has gained such a reputation that any

instrument he said was good was taken without question.

Mr. Brown has had associated with him F. W. Bolton, piano tuner, 27 years; A. J. Ward, salesman, 20 years and George Coffman, porter and driver, 26 years. Earl Richardson, tuner and George Guyett salesman, have been with him for shorter periods. It is the desire of the incoming house to retain the services of these gentlemen and that question will probably be decided in a short time.

Mr. Bliss has had long experience in the piano trade, and has a wide acquaintance and is a striving, energetic man while Messrs. Sandusky and Shakely are men who thoroughly understand the music business and will be desirable additions to the population of Jacksonville.

### "Buy 'em from the boys."

THOSE BUSY PARENTS.  
The Journal is in receipt of the following taken from the Springfield Churchman, sent by a Jacksonville woman who signs herself "a friend of yours and a mother."

(As Told by the Nurse.)  
That is your father, dear,  
Just going out of the door;  
O, he's been living here

For seven years or more!  
In business he's so deep  
He has no time to fret  
With little girls, but keep  
Up hope—we'll meet him yet!

That is your mother, dear,  
Just getting in the car,  
She knows that you are here  
And also who you are!

But what with clubs to meet  
And bridge to play, you see,  
With hours so short and fleet  
She's turned you o'er to me.

But there, my dear, don't fret,  
Or let those blue eyes blur,  
Some time I know you'll get  
Acquainted too, with her.  
They're simply rushed to death,  
But there, my dear, don't cry,  
When angels vigil keep,  
She asks if you're all right  
And when you went to sleep!

I think you'd like them both.  
I think they'd both like you,  
But what with "higher growth"  
And many things to do

They're simply rushed to death,  
But there, my dear, don't cry,  
If they should stop for breath  
We'll meet them by and by.

### REVIVAL CLOSING AT CONCORD.

One of the most profitable revivals that has been held in Concord for several years at the Methodist Protestant church closed Sunday evening. Rev. A. L. Cain, pastor of the church conducted the series of meetings, he being the newly installed minister having come in September to dwell with us, though young in years and experience he is filled with the divine spirit has proven himself a capable man at least the deep awakening in this community will be of lasting benefit to the betterment of Concord and the vicinity it is sincerely hoped.

During the almost three weeks meetings there were twenty additions and several others converted.

The music was under the leadership of Prof. E. C. Costly of Weldon, Ill., who with a choir of 40 voices contributed largely to the success of the meeting.

Prof. Costly is a minister as well as musician, a lecturer of some note and he gained a warm place in the hearts of those with whom he labored so earnestly.

His splendid solos and well trained chorus were of very material assistance to the impressive services.

## Removing Last Obstruction In Panama Canal; Fram First Vessel Which Will Pass Through

Photos by American Press Association.

The waters of the Atlantic and Pacific oceans actually met when a channel was cut through the recent slide in the Culebra cut, as shown in this illustration. Thus were the oceans wedded. The first vessel to traverse the canal from ocean to ocean will be the Fram, the sturdy craft of the noted explorer, Amundsen. In the cut the Fram is seen lying at Cristobal, in the canal zone, waiting for the last slide to be removed.

### SOME OFF-SIDE CHUTES.

That Jack Johnson is nearly broke is evidenced in a report from Boston on Monday. The Big Spade has sent word to Joe Woodman, manager for Sam Langford, that he is in financial straits and that he would like to be given a chance to clean up some of the easy money that is loose around the French metropolis before meeting the Boston Tar Baby. He asks that the schedule be set back from Dec. 4 to a date some time in February. There always has been a suspicion that Jack held Sam in mortal fear, and this latest duke of the champion is convincing proof to the friends of Langford that Johnson is seeking a subterfuge to backwater. Woodman, however, has consented to a postponement, but will insist that Jack "comes across" in February or relinquish all claims upon the heavy-weight title.

Packey McFarland has clinched a meeting with "Kid" Alberts, a short sketch of whose career in the arena was given in this column three weeks ago. They will meet at Waterbury, Conn., on the 20th inst., weight to be 127 pounds at 3 o'clock. Six days later McFarland will exchange wallops with Harry Brewer of Kansas City at Windsor, Canada, under similar conditions. Packey will shortly retire from the game, and he has issued a challenge to any man in the world weighing no more than 142 pounds to meet him between now and February 15, 1914.

Michigan has dropped to her knees and the student body at Ann Arbor has started a popular vote on a return to the western football conference. Excitement runs high, with the students, alumni and faculty all pulling in opposite courses. The poll will be kept open until late tonight. The anti's strength is largely among the upper classmen and the alumni.

Work was commenced at Gosport, England, Monday upon Thomas Linton's fourth Shamrock to compete for the American yachting cup next year. The boat is contracted to be in readiness for its trials in April.

Six hundred dollars is the price fixed by a Wisconsin court for the loss of a finger by a professional baseball backstop. Waco Carr, who plays minor league ball in the summer and engineers a shoe cutting machine in the winter, lost a finger in a Milwaukee factory while cutting shoe soles and sued the company for \$2,000, because, he maintained, the loss of the finger on the throwing hand deprived him from making a living playing ball.

Outfielders Ryan and Lelivett, with Cleveland the past season, have been sent to the minors, Toledo in the American association, purchasing both contracts on Monday.

George Stovall is on the road and in quest of major league stars for the Federal league. He announces that his league is not going after Johnson, Cobb, Speaker and other high salaried stars, but will be content with signing the lesser luminaries first. Players who are under contract will not be tampered with; but those who are held under the reserve clause will be approached and paid substantial increases over

the salaries allowed by the terms of the majors. Players who are drawing \$3,000 at present will be paid \$4,000 and given a gilt edged bond guaranteeing protection. The ex-Browne is now at Toledo endeavoring to induce "Jap" Barbeau, third baseman with the Kansas City Blues, to sign.

The American league magnates will assemble in annual convention at Chicago tomorrow, and the forecast promises the liveliest session in the history of the organization. The reserve clause in the contracts, the publicity of waivers and the open war promulgated by the Federal league will keep the moguls busy attempting to solve.

Matty McCue, the lightweight, is in Chicago searching for a manager. The Racine boy is dissatisfied with his father at the helm, and is anxious to hook up with some one who knows the inside of the boxing game. McCue, like Nate Lewis and it is in the range of possibilities that he will connect himself with Nate's stable of mitt artists.

Coach Williams will stick with the Gophers despite all rumors to the contrary. The athletic director has kept mum as to his position and allows the knuckers full swing with their hammers. President George E. Vincent of the University of Minnesota has for the time being at least squelched the rebels in the alumni association by announcing that Dr. Williams is giving full satisfaction to the faculty and that he will be retained. Negotiations for another coach have not been thought of, neither will they be entertained, as the Williams contract has yet two years to run.

The London Times is lamenting the apathy displayed by British students at Oxford university. It asks its readers to awaken the undergraduates and put some ginger into them. The Thunderer has just discovered that each athletic event at Oxford was won by a Rhodes scholar, all of whom were foreigners, and most of them are from the United States.

**MAKING CROSSING SAFE.**  
O. F. Buße has already begun to have the hedge along Vandalla road next to his place removed according to his promise and the whole work referred to will doubtless go ahead as rapidly as possible rendering the Vandalla road crossing of the Chicago & Alton more safe.

### COMMISSION SETS DATE FOR SECOND EXAMINATION

Nineteen Counties of the State Have  
No Eligible List From Which to  
Select a County Highway Superintendent.

Springfield, Ill., Nov. 4.—Owing to the fact that nineteen counties of the state have no eligible list from which to select a county superintendent, the Illinois Highway commission today sent out a circular letter calling attention to the provisions of the good roads which makes it mandatory that a county superintendent be named before any road improvement calling for an expenditure of over \$200 can be made, and setting a date for a second examination in this city on November 25.

Four of the one hundred and two counties in the state failed to present any candidate at the examination held by the highway commission recently, while no candidates appeared from Alexander and Pope counties, although the county board sent in its selections. The candidates selected in thirteen counties to take the examination failed to pass.

### EDUCATION FOR LIFE.

That Hampton and Tuskegee, schools for negroes, are valuable not merely as excellent schools for the colored race, but for their important contribution to present vocational education movement, is the declaration of the United States Bureau of Education. In a pamphlet just distributed by the bureau, entitled "Education For Life," tribute is paid to the work of Hampton Institute and particularly General Armstrong, its founder, who is looked upon by educators as a pioneer in the field of practical education.

"General Armstrong possessed a remarkable degree the gift of educational prophecy," asserts Prof. Peabody in the introduction to the pamphlet. "He foresaw and foretold with extraordinary precision the tendencies and transitions which within the last twenty-five years have practically revolutionized the principles of education. The training of the hand and eye as well as of the mind, the moral effect of technical skill, the conception of labor as a moral force, the test of education in efficiency, and the vanity of education without discipline in thrift, self-help, love of work, and willingness to sacrifice—all these familiar maxims of modern vocational training were set forth by him with all the assurance of a social prophet."

The pamphlet includes a brief sketch of General Armstrong's life and a collection of pithy utterances on aims and methods of education, many of which are distinctly helpful to those interested in present problems, according to officials of the bureau of education. It is felt that General Armstrong's theory and demonstration of practical education have proved to be right, not merely for the races for which they were immediately intended, but for boys and girls everywhere since they represent a successful attempt to work out one of the most momentous tasks of our time—that of creating an education that shall be an effective force for training productive, efficient members of society.

### INDICTMENTS QUASHED.

Rook Island, Ill., Nov. 4.—Thirty-eight indictments against Sheriff O. L. Bruner were quashed in circuit court today by Judge E. C. Graves upon motion of the defendant's counsel.

The judge sustained the contention of Bruner's lawyers that all of the indictments were faulty in legal construction and would not stand before a court. State's Attorney F. L. Thompson immediately entered a motion to recall the grand jury.

Bruner is alleged to have accepted pay for releasing prisoners from the county jail.

## ECZEMA SPREAD ALL OVER BODY

Began on Cheeks With Pimples.  
Itched Badly. Caused Disfigure-  
ment. Had to Put Mittens on  
Him. Used Cuticura Soap and  
Ointment. Eczema Left Him.

Roxbury, Ohio. — "When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and they seemed to itch so badly he would scratch his face and cause a matter to run. Wherever that matter would touch, it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar on each side. He was so restless at night we had to put mittens on him to keep him from scratching them with his finger nails. He could not sleep because I put those mittens on which would not allow him to scratch and then he would wake up and be cross. If he got a little too warm at night it seemed to hurt badly.

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and spread the Cuticura Ointment on the eczema left. (Signed) Mrs. John White, Mar. 19, 1913.

Cuticura Soap and Ointment do so much for poor complexion, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

**Men Welcome  
Mother's Friend**

A Duty that Every Man Owe to Those  
who Perpetuate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering, pain and distress incident to child-bearing can be easily avoided by having at hand a bottle of Mother's Friend.

This is a wonderful, penetrating, external application that relieves all tension upon the muscles and enables them to expand without the painful strain upon the ligaments. Thus there is avoided all those nervous spells; the tendency to nausea or morning sickness is counteracted, and a bright, sunny, happy disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to open its eyes in bewilderment at the joy of his arrival. You can obtain a bottle of "Mother's Friend" at any drug store at \$1.00, and it will be the best dollar's worth you ever obtained. It preserves the mother's health, enables her to make a quick and complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child. Write to the Bradfield Regulator Co., 129 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers. Get a bottle of Mother's Friend today.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

**LAXATIVE FOR OLD  
PEOPLE—"CASCARETS"**

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts in Nostrils—Danger!

Get a 10 cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Adv.

### CHOOSE COUNTY

#### SPELLING CHAMPION

Contest December 6 to Decide Who Goes to State Match.

Who is the best speller in the first eight grades of the Sangamon county schools? County Superintendent Edgar C. Pruitt is going to find out in a county contest to be held at the Springfield High school at 10:30 a. m. Saturday Dec. 6, and the person who displays the greatest knowledge of spelling in this match is to represent the county in the state contest.

The match is the result of a movement by a number of county superintendents of the state to promote better spelling. Complaints that the schools no longer encourage proficiency in spelling, but neglect this branch of instruction in favor of more advanced branches, have aroused many school authorities to an effort towards better spelling.

**Want National Contest.** It is the hope of promoters of the movement that a national contest may be held in conjunction at St. Paul, Minn. If this "great match" is held, the winner of the Illinois contest will have the pleasure of traveling to St. Paul for the contest as representative of this state.

Each city, village or country school may send one representative to the county match. The rules to govern the state contest on the last day of the year, are as follows:

**Rules of State Meet.** 1. The State Spelling contest shall be held in Springfield, Ill., on Tuesday, Dec. 30, 1913, which is the opening day at the state teachers' meeting.

2. Each county should be entitled to one representative.

3. All pupils in the first eight grades, regularly attending the public schools during the year 1913-1914, shall be eligible to enter this contest. Eighth grade graduates are excluded.

4. Representatives to the State Spelling Contest shall be chosen by means of organized county contests under the direction of the County Superintendent of Schools. The details of the county contest are left to the County Superintendent to work out in such manner as he thinks best for the schools of his community. The elimination plan is recommended, beginning with a spelling match in each school. The winners of these school contests to constitute a township contest; the township winners to participate in the county contest. All words used in the county, township, and county contests should be selected from the adopted spelling book and word lists as given in the eighth year orthography, State Course of Study.

5. The State Contest shall be written. The test will be to spell words correctly. No requirements will be made for the analysis, definition, diacritical marking, or use of words in sentences. No proper names shall be included.

6. The words shall be chosen

from (1) word lists in eighth year orthography, State Course of Study; (2) Calvin's Speller and Manual of Pronunciation.

7. A list of 100 words will be selected from the above named sources for the State Contest. In the event there is a tie, 25 words more difficult in character will be pronounced. Should there still be a tie, lists of 10 words shall be pronounced until a winner is found.

8. The following committee to arrange details of the State Contest was appointed at a conference of county superintendents who attended the Boys State Fair school; Chairman, State Superintendent E. G. Blair, Springfield; Co. Supts. Chas. McIntosh, Monticello; Roy L. Moore, Eureka; D. F. Nichols, Lincoln.

9. Competent and disinterested persons will be chosen by the committee to select and pronounce words for the State Contest.

10. A complete list of contestants should be in the hands of State Supt. Blair on or before December 20, 1913.

11. Gold, silver and bronze medals will be awarded to the winners of the State Contest.

12. Each county superintendent whose county participates shall pay a fee of \$2.00 to defray necessary expenses.

**FROM THE "GREAT AMERICAN DESERT."**

Lincoln, Neb., Oct. 30, 1913. It seems but a little while since the atlases marked Kansas and Nebraska—or rather the region now occupied by them—as part of the Great American Desert. But civilization, especially by means of railroad communication, has driven out the Indian and peopled the region of the Plains of California emigration days with a newer and better race than the aborigines.

About two weeks ago we left Jacksonville and came by Hannibal, St. Joseph and Omaha, to Wayne, in northeast Nebraska. There we visited friends, inspected land and studied the effect of last summer's heat upon the crops. As is probably known to most of the readers of the Journal the country in Nebraska south of the Platte, and the western counties, suffered most from the drought.

North of the Platte things were found better, and Wayne county was one of the most favored in this year's crops. Oats and wheat were about an average crop, but pastures were badly burned up, and the water supply was getting pretty low when the hot days ended.

Probably a good part of Wayne county will average about 25 bushels of corn to the acre, which, with the good prices this year will about fix the farmer as usual, aside from those who are breeding cattle. The high price of corn will be against them.

Wayne City is one of the prettiest and best towns in the state, away from the site of the Northern Nebraska Normal college, an institution well conducted by President W. S. Conn.

From Wayne we came, via Omaha, to this city, getting to be known through the land as the home of Wm. Jennings Bryan, secretary of state of the United States. There was a time when the feast did not care for Mr. Bryan, and even Lincoln did not realize the prominence of its most distinguished citizen, but that time has passed. Bryan has put Lincoln on the map, and Lincoln appreciates his work. Jacksonville has furnished the Nebraska capital with a number of well known or prominent citizens, among them F. W. Brown of Jacksonville, Prof. F. W. Sanford, Mrs. Clarence S. Faine, who was Miss Clara Silsby, the Hollowbush family, and Cyrus Sanderson, a well known business man. Clarence S. Faine is secretary of the Nebraska Historical society, and of the Mississippi Valley Historical association, and has his office in one of the buildings of the state university group. The historical society has a good sized collection of mementoes of the early days of Nebraska, and natural curiosities of the state. Among the things in an army record card—such as many veterans of the civil war have—showing Victor Vifguin as major of the 97th Ill. Vol Inf. Near by is a copy of Vifguin's farewell address

to his regiment, as colonel at the end of the war. He came to this state and became its adjutant general, leading a Nebraska regiment to the Spanish war. Illinois has contributed many a good and notable citizen to the state of Nebraska, as to so many other western states.

Along about 1886 to 1889, I used to visit, when here, in the law office of Maier, Wm. H. Swedell, formerly of Jacksonville, and at that time met there a young man from Ohio named Thos. C. Munger. He had come first to Chicago and now law in the office of Judge Van H. Higgins, well known to older Jacksonville people, and then Munger came out to Dunday county, Nebraska, and started to carve his name on the roll of fame. Dunday is one of the far west counties of this state, and the young lawyer soon found it was too much of a frontier region, so he pulled up his stakes and came to Lincoln. Since then he has grown with the city and state, and has been public prosecutor, a state judge, and, in 1907, was appointed as United States judge by President Roosevelt. Judge Munger is a capable and efficient officer, is happily married, and has the prospect of many years of service still ahead of him.

### HARVESTER COUNSEL IS SARCASTIC IN HIS ATTACK

Declares There is no Evidence to Sustain Six of Seven Charges Against I. H. C.

St. Paul, Minn., Oct. 30.—Edgar A. Bancroft of Chicago, general counsel for the International Harvester company, this afternoon entered the list in the federal arguments against the government's suit for dissolution of the harvester concern under the Sherman law.

Mr. Bancroft became sarcastic in his attack on the brief of the department of justice in the case and declared there was absolutely no evidence to sustain six of the seven charges contained in the brief and alleged that five of the seven charges had not been dropped out of the case and had not been mentioned.

"Surely," Mr. Bancroft said, "the fact that the suit was filed during the heat of a presidential primary had nothing to do with these charges."

"Surely, the fact that similar charges had been made in the tobacco case had nothing to do with these charges."

"Surely, a trust is a very poor specimen of the tribe if the questions of prices and profits are not part of its plan."

Mr. Bancroft then reviewed the charges contained in the federal brief and declared that with the corporation employing thousands of agents and 2,000,000 farmers who had purchased machines from them, the government had a fruitful field in which to discover influences of oppressive prices and other evidence to sustain their charges.

If there exists a semblance of plausibility, a possible basis of fact for the government's charges."

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil-meal and five times as much as middlings, shorts, shipstuf, or alfalfa meal.

TANKAGE is recommended by all leading experiment stations. It is packed in one-hundred-pound burlap sacks, plainly marked "SURE FATTEN HOG FOOD." Analysis as above. It is the ideal feed to balance rations.

**WHAT "SURE FATTEN HOG FOOD" TANKAGE DOES.**

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby saving one-third of the feed bill, one-third of the labor, one-third of the risk, increasing profits one-third.

It grows better proportioned hogs, more meat, and more fat, hence market-topper hogs. "SURE FATTEN HOG FOOD" Tankage fed hogs ship well with small shrink. While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that "SURE FATTEN HOG FOOD" TANKAGE fed hogs are universally healthy. Manufactured by the

## INITIAL CONCERT OF ARTISTS' COURSE AT WOMAN'S COLLEGE

Cornelius Van Vliet, Cellist and Miss Marie Edwards, Pianist Give Superior Program.

The initial program of the Artists' course opened auspiciously at the Woman's College Tuesday evening consisting of a concert by Cornelius Van Vliet, cellist and Miss Marie Edwards, pianist. A large audience was present and their appreciation was manifest in the number of encores demanded.

Mr. Van Vliet is head cellist of the Minneapolis orchestra, and has been here from Holland for three years. He is an artist in every sense of the word. His playing is characterized by all styles of cello work from the most brilliant technique display, as exhibited especially in the Tarantella from Popper to the most delicate pianissimo work as shown particularly in the Sonata by Beethoven, the opening number. The finesse displayed in the shorter cello numbers, Deutscher Tanz of Mozart, and the Tambourin of Gossec was artistic in the highest degree, while the tone work was brought out in the slow numbers revealed a wonderful control of bow. He handled his instrument with the same ease as displayed by a violin virtuoso, nothing seeming too difficult for execution.

Miss Edwards will be recalled as the pianist who appeared here two years ago with Francis McMillan. Since that time she has been considerable concertizing, having only recently returned from a number of recital engagements along the Pacific coast. She possesses a wonderful technique, together with the highest appreciation for such essentials of piano playing as balance and shading. Her numbers of the program gave her ample opportunity to display her ability in all kinds of pianistic efforts. Especially did she reveal a tremendous brilliancy in rapid passage work, such numbers from Faschingsschwank Aus Wien and the Concert Etude from MacDowell, being played with all the ease and skill of the matured artist. Her accompanying work was marked by a delightful sympathy for the soloist which was greatly appreciated by the audience. The program with the encores follows:

## "DRY" FORCES WIN DECISIVE BATTLE

(Continued From Page One)

The figures show that such a large percentage of the women who voted were against the saloons that it not likely that the question will come up again in Jacksonville for many a day unless the equal suffrage bill is declared unconstitutional. Even that would not be a permanent barrier in the way of the women for equal suffrage by one law or another; is certain to come if one may read the signs of the times and judge by the experiences and conditions of other states.

## FUSION TICKET IN NEW YORK IS VICTORIOUS

(Continued from Page 1.)

tion was assured, his friends escorted him to Boston Common, where he addressed a great crowd of wildly cheering partisans.

**Sulzer Gets Big Vote.**  
New York, Nov. 4.—William Sulzer, ousted from the governorship of New York last month by verdict of a high court of impeachment was elected to the state assembly today from the sixth district by a sweeping plurality, estimated at 2,000 or more. He ran on the Progressive ticket and apparently polled more votes than his Republican and Democratic opponents combined. His old neighbors on the east side rallied strongly to his support and it was early apparent that he had swamped the opposition.

There was jubilation unbounded in the former governor's headquarters as the count began to record his victory. Sulzer himself was all smiles. He regarded his triumph as a personal vindication, he said and issued a statement thanking his supporters and scoring Charles F. Murphy, leader of Tammany Hall who, he declared was condemned by the vote that gave the district William Sulzer as its representative at Albany.

**Issues Statement.**  
"The people of the sixth assembly district," Sulzer said in his statement, "think better of me than of Mr. Murphy. They know why Mr. Murphy removed me from the governorship; they know when Mr. Murphy asked me to do wrong I refused to do wrong, they know when Mr. Murphy tried to bribe me I refused to be bribed, they know when Mr. Murphy threatened me I defied his threats. The voters have now condemned Mr. Murphy, reversed the judgment of his high court of infamy and vindicated me by verdict of the polls which in the last analysis is the opinion of mankind."

From Mr. Murphy's high court of infamy I appealed to the higher court of public opinion. Mr. Murphy said there was no appeal from his court but Mr. Murphy was mistaken and he knows now that the judgment of the people can reverse the judgment of any court."

Sulzer made his fight for election to the assembly on the lines of the statement he issued tonight. His canvas was a whirlwind affair; demonstrative crowds greeting him whenever he spoke. He rarely went out side of his district but his speeches within that territory were directed at the Tammany organization.

## Practical Overcoats

There was a time when overcoats were either style garments or storm garments. Not so now.

The present vogue for heavy materials, such as Chinchillas, Shetlands, etc., the shawl or convertible collars, and the three-quarter or ulsterette length, so combine comfort with style as to make the most fashionable service garments. We emphasize this in the large variety of Overcoats we are showing now.

**This is the logical store to buy your Overcoat, where style and price are equally as pleasing. Prices range from \$7.50 to \$30.00.**
